

Using Waitster

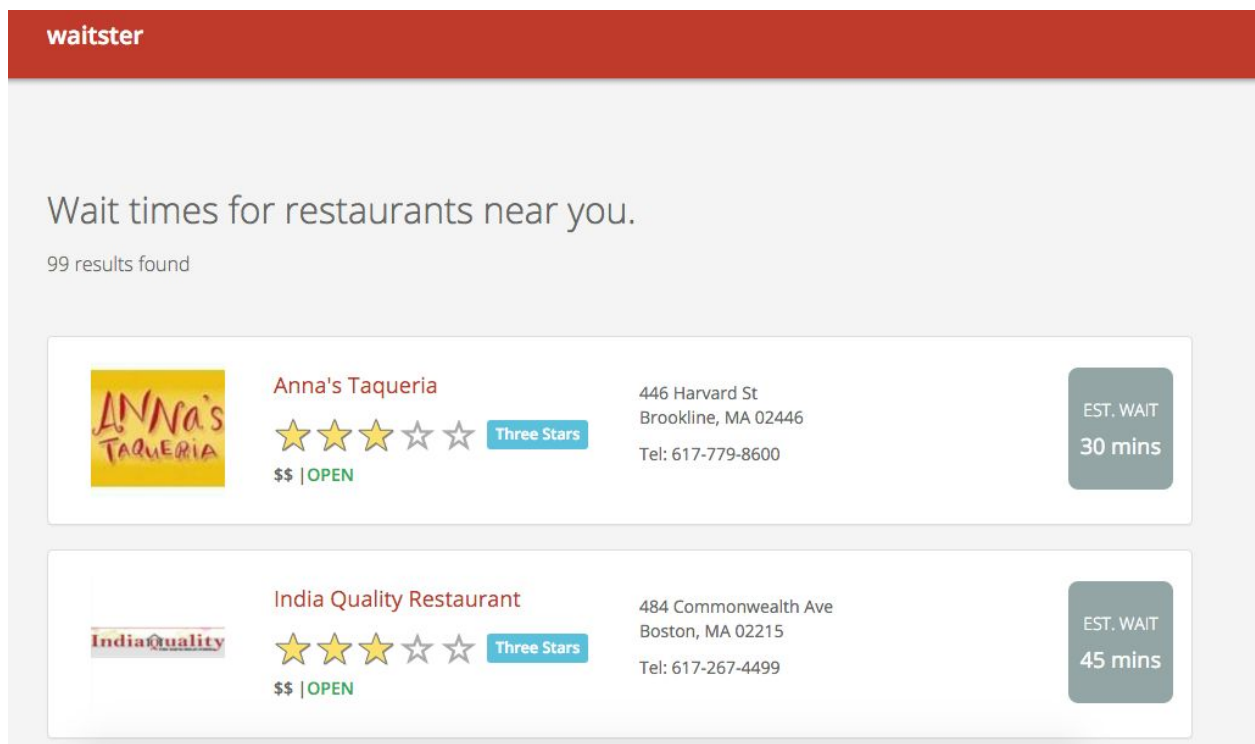

Waitster is a web application that uses food ordering APIs to determine the average wait time at a restaurant. This will allow customers to view how packed restaurants or cafes are, whether they want to have a quick meal or hold a study session.

Location is autoloaded into the search bar using Google Maps API. Party animal also has an option to type in alternative location.

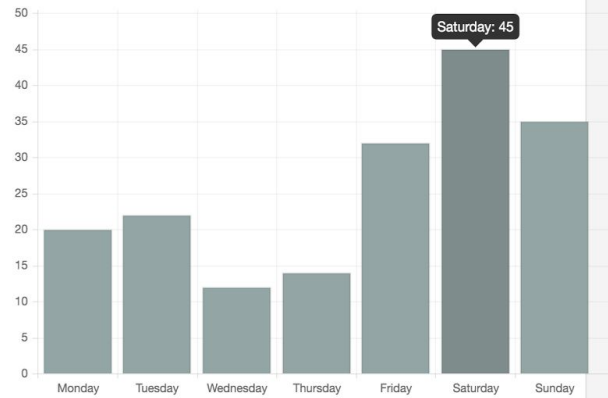

When Party Animal presses enter, a progress bar pops up while the next page loads.

A new page is displayed with a list of restaurants near or in the entered location. The estimated wait time is displayed. The Party Animal can click on the restaurant name for more information on another page.

Weekly Average Wait Times

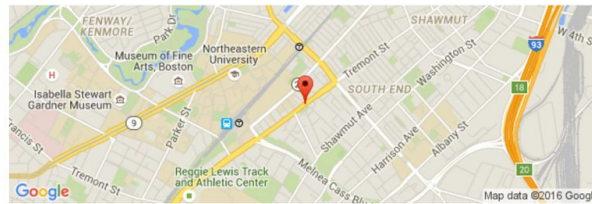

Map & Contact

Map & Contact

1427 Tremont St, Roxbury Crossing, MA 02120

Tel: 617-541-0300

Business Hours

Monday	11:00am - 12:00am
Tuesday	11:00am - 12:00am
Wednesday	11:00am - 12:00am
Thursday	11:00am - 12:00am
